WAY FORWARD

Increase productivity upto 5kg/tree, by maintaining coffee plantation (mulching, applying fertilizer and pest control); F

Guideline for fertilizer and pesticides application

Maintaining coffee plantation planted (last three years) in consolidated sites (using community work, cooperative, CWS);

Close collaboration with coffee grower cooperative and CWS owners, Security Organs, Police, Army, Reserve Forces;

Mobilization of coffee growers to grouped in small groups so that they can buy sprayer and other materials needed for coffee maintenance;

THANKS !
